

Division 3 Member Benefit	Notes
Visibility among peers	Only the most advanced water and wastewater facilities incorporate membrane separation in their treatment processes. Network, share information and enhance your utility's knowledge and experience by joining the exclusive and focused AMTA community.
Service and Product Provider Directory	Access to searchable database of AMTA Division 2 members and the products/services they provide (engineers, manufacturers, etc.)
Discounted Registrations	AMTA member discounts for workshops, Membrane Technology Conference registration and more!
Webinars and online training	<p>AMTA has a library of over 50 on-demand training and learning tools. Learn at your pace on your own timeline.</p> <p>Earn CEUs and PDHs on select live webinars and events while you learn from industry leaders and keep up with the latest technology and best practices</p>
Fact Sheets	Division 3 Members have access to the full library of AMTA Fact Sheets
Digital Library	AMTA's digital library, fact sheets, and MTC proceedings are the membrane knowledge base in North America. For agencies without in-house membrane SMEs, the library becomes a low-cost intelligence extension of your team.
Guidelines	AMTA recently started publishing Guidelines covering key subjects such as G-002 which covers Safety and Reliability of High Pressure Membrane Systems. Guidelines are available to members at discounted rates.
Stay Ahead of Regulations	Membrane treatment is tied to evolving regulatory pressure: PFAS, potable reuse (IPR/DPR), pathogen LRVs, brine management, membrane integrity testing, and waste-to-energy/low-brine initiatives. AMTA gives members early access to regulatory movements, upcoming rule frameworks, and technical interpretations.
Strengthen Capital Planning and Vendor Accountability	AMTA gives you the technical literacy to challenge recommendations and ensure you are not over-specifying, over-cleaning, or over-replacing membranes.

American Membrane Technology Association

Division 3 Member Benefit	Notes
Training and Development	<p>Membrane systems succeed or fail based on operator knowledge. AMTA membership provides:</p> <ul style="list-style-type: none">•Free/discounted CEUs/PDHs•Workshops targeted at real O&M problems•Direct access to seasoned operators•Facility-to-facility knowledge sharing•On-site workshops that pull national experts to your plant <p>Every new correctly trained operator avoids thousands of dollars due to potential membrane or chemical misuse.</p>
